Washington Homebrewer of the Year Award Framework

The purpose of the Washington Homebrewer of the Year (WHOTY) Award is to recognize Washington homebrewers who routinely place well in Washington competitions around the state throughout the year. By placing well at competitions which meet standards set by the WAHA Awards committee, Washington homebrewers will accumulate points which will be totaled up at the end of the year, identifying the winning homebrewer. These points will also go to support a component of the Washington Homebrewing Club of the Year award.
